

16 January 2020

3.1 Health and Wellbeing Board development session - Key themes identified from the dotmocracy and action planning:

Following the LGA led development session held on 11 November 2019, the action planning session; Board members agreed the below in terms of what to 'Act' on and what to 'Sponsor' collectively.

Act:

- Revisit and refresh the vision and purpose and ways of working of the HWB
- Need to ensure that the HWB is leading the system at place
- Leadership included moving from transactional to transformational role
- Leading and fully embedded a person-centred approach across the system and one that is based on prevention and an asset-based approach.
- Ensuring the board is clear about its unique contribution and that it is greater than the sum of its parts
- It can only do this by focusing on a few key priorities.
- Agree how to translate vision into plans and plans into action. Need to free up the HWB from simply noting reports and signing off papers.
- Integrated information and advice to promote self-care.
- Agree how we can pool resources across health and social care to improve health in early years.
- Prioritise improving outcomes in the physical and mental health of young people.

Sponsor

- Determining and agreeing footprints to best address long term needs, service provision.
- Reduce pollution and improve air quality.
- Children's mental health.
- Lead public participation
- Develop and promote service user and carer co-production of services across the system

There were other statements that the Board were unable to agree were definitive in terms of scoring to be added to either the Act or Sponsor categories:

- We have an aligned vision and strategic plans
- We are measuring the shift of activity and resources
- We have dedicated transformation funding
- Our plans for prevention/align with our plans for integration
- We have a place-based approach with partners beyond health and care
- Robust arrangements to involve people in developing and reviews services
- We have an integrated approach encouraging self-care
- We have integrated information and advice services
- We have integrated workforce development
- We have shared health and care records

Board members are asked to reflect on these prior to the meeting to provide the opportunity for an in-depth discussion on 16 January.
